SonexaLab

SERVICE OVERVIEW

Managed AI workflows for local businesses.

Your own business-specific AI setup, managed by SonexaLab. Less repetitive admin. More room to focus on your customers.

A separate setup for your business

We configure and manage your AI account or workspace with authorized access. Your information, permissions, and connections stay separate from other businesses.

Practical help with everyday work

SALONS

Prepare replies to service enquiries and guide customers to the next booking step.

PIZZERIAS

Organize catering enquiries, missing details, and staff follow-up.

CAMERA RENTALS

Turn equipment enquiries into clear request summaries for staff review.

Across your business: enquiry handling, booking support, information capture, admin, and follow-up preparation - scoped to the tools and tasks you agree.

Start small. Keep it useful.

01

Discover

Choose the task and agree on a scope and tailored quote.

02

Setup and pilot

Configure your setup and test one workflow with your team.

03

Monthly management

Maintain the agreed workflows and provide defined support.

One monthly service. Clear boundaries.

Your monthly fee includes agreed software costs, a defined usage allowance, maintenance, and support. Your quote sets the scope, any setup fee, and how extra usage or changes are approved.

Your team approves customer commitments. Account ownership, access, cancellation, and handover are agreed at onboarding, with client control where practical.

Tell us about one recurring task.
